

# KLONDIKE CLAIM JUMPER Camporee

Developed by John Kirwan Troop 197/286 in 1993 at Camp Schoellkopf

## OVERVIEW

**Location:** Don Miller Park (Red Jacket Club)-1601 Sweeney St, North Tonawanda, NY 14120

**Date:** June 14<sup>th</sup> to 16<sup>th</sup>, 2024

**Cost:** \$30 (Includes a T-Shirt, Fri/Sat Cracker Barrel, All Meals Saturday, Sunday Breakfast)

**Who is coming:** Kenton Troops 104, 184, 229, 286, 539, 931

**Setting:** The setting for the game is the Klondike River area, Yukon Territory, Canada. The year is 1896. Gold was discovered and prospectors like you are pouring into the area from all over the world. They find that to work and defend their claims (campsites) in this wild territory, it is necessary to form mining companies (Troops/Crews), small groups of people (scouts) who will work together.

### The Game:

- Prospecting - pick an area, stake your claim using compass and setup campsite.
- File your claim at the claim office in Dawson and earn gold (gold painted rocks).
- Improve and work your claim and earn gold. Improvements include shelter, gateway, tripod, drying rack, ax yard and other improvements.
- Get your gold to town. Gold can be deposited in the bank to keep it safe from bandits.
- Opening Campfire – earn gold for skit, song, and cheer.
- Purchase breakfast/lunch from the store using gold. You must bargain for food.
- Cook over an open campfire. What you cook and how you cook it earns gold.
- Capture the Flag – earn gold for capturing base flags and for personal flags.
- Survive a mining accident. The Mounties (RCMP) will declare a mining accident and tell you the symptoms of the victim. Use your first aid skills to earn gold.

**Campsites:** Shelters/Tent sites are available for you to use. Wood is provided by the Camp for free. There are only 4 shelters so 2 troops will be without one. I recommend everyone bring a pop-up. Cars and trailers are not allowed in campsites but the road/parking lot is close to where you will be camping.

**Skills Required** - scouts should wear the T-shirt provided or their activity uniform (Class B) during the game. The skills required include compass use, distance measurement, campsite selection, knots and lashings, axe and saw safety, fire safety, fire building, first aid, cooking and cleanup. Additional elements of the game require each group to make choices about the use of gold earned to acquire food. The game requires scouts to cook breakfast and lunch over an open fire.

## **MINING COMPANY (Troop) EQUIPMENT**

- Troop Trailers will not be allowed in campsites. Cars must be parked in parking lot.
- Dining fly
- Patrol Flag/America Flag/Troop Flag, Troop Sign, Gateway
- Staves for lashings
- Rope or twine for lashing, and gateway
- Tents
- Table – Shelters have tables, campsites do not.
- Cooking gear, cooking utensils, cook grate, cleaning gear and water jugs.
- Mess kits, utensils, and water bottles.
- Fire starters, matches and fire safety equipment (extinguisher or water bucket)
- Bow saw and/or ax.
- Compass and ribbon to stake a claim.
- Pencil and paper
- Duct tape.
- Bug Spray
- First aid kit, splints, neckerchiefs, and bandages for mining disaster
- Specialty food. Dough for making bread, Dutch ovens, etc...
- You must get your personnel gear from the parking lot to your site by scout power. Bring a wagon.

Leaders should bring regular troop equipment for cooking their meals (i.e. propane, stoves, etc..) especially if there's a chance of rain. You don't have to eat what the scouts cook over the fire, but it would be nice if you can.

## **TRIVIA TEST**

A Trivia Test will be sent to the Troop Leader prior to the camporee. The Troop Leader should pass it on to the SPL who should pull the mining company (troop) together at a troop meeting to answer the questions. There are 25 questions, and all the answers are in this guidebook. Each correct answer is 1 piece of gold (max 25). Answers can be submitted to Mark Oetinger ([markoetinger1@gmail.com](mailto:markoetinger1@gmail.com)) prior to the camporee or can be brought to the camporee. Do you think we are trying to get the scouts to read the guidebook prior to the camporee?

## **STAKE YOUR CLAIM**

**Stake your claim:** In your assigned campsite, tie Yellow Caution Tape around trees or stakes that will mark the corners of your claim. Take a compass bearing from one of the corners of your claim. Record it on your claim sheet and proceed clockwise from the corner compass bearing and distance from corner to corner of your claim, Entrance ways/trails cannot be included in your claim. Note, 3 sides of your claim can be barricaded with rope or yellow caution tape but one side must be left open and it must be a minimum of 25 feet so that attackers can enter your campsite.

**File Your Claim:** Get your claim form and mining company roster to Dawson and earn gold. Don't forget a skit, a song, and a cheer on the claim form.

## **OPENING CAMPFIRE**

Each mining company will perform a song, a skit and a cheer. There will be judges who will rate the skit from 1 to 5 gold pieces. Original skits/songs/cheers will earn more. Props are encouraged.

## **COOKING:**

We will supply food for Saturday breakfast and lunch. We ask the troop not to bring your own food for these meals unless it's a specialty item or if there are dietary restrictions in your troop. Food will need to be purchased at Dawson (Dining Hall). There are no set prices. You will need to negotiate/bargain for your food. Only 2-3 negotiators per troop please. The troop can use gold in the bank to purchase food. Food will be cooked over open fires or tin can stoves/buddy burners in your campsite. No propane or white gas stoves will be permitted (unless there is a lot of rain). Extra points will be awarded for better meals but do not take too much time. If scouts do not purchase enough food for the troop, please come to Dawson (Dining Hall) and ask for more. We ask adults to eat breakfast and lunch with your troop but leave the youth leaders the responsibility of food preparation in your campsite. Adults should supervise the effort only. **We ask that troop leaders award gold for food preparation and presentation.** There will be no claim jumping of gold before the capture of the flag game starts. Your 1<sup>st</sup> deposit of gold in the morning and afternoon gets a free ride to the bank.

Leaders should bring regular troop equipment for cooking their meals (i.e. propane, stoves, etc..). If rain occurs, we may need to cook using them for the entire troop.

## CAPTURE THE FLAG

### Your Base Flag:

- Claim flag must be placed on tripod in plain view, between 4' to 5' high off the ground.
- Claim flag must be in the center of your campsite and be easily accessible from all sides. It cannot be placed at the back of campsite or obstructed in any way.
- Claim flag cannot be anchored in any way to the tripod.
- No obstacles can block access such as tents, fire pit, etc.
- A circle will be painted around the claim flag 5 feet from it to mark the area that defenders cannot enter to defend their flag.
- RCMP has final decision and can ask you to move your flag (no arguing about it).

**Capturing a Claim Flag:** Steal a claim flag and win gold. When inside another's claim, the attacker can have their flag pulled but cannot pull a defender's flag. Defenders must be 5 feet away from the campsite entrance and at least 5 feet away from their claim flag while defending it. The attacker can remain in the claim flag circle for a maximum of 1 minute. Once an attacker captures a claim flag, he can still be captured while in the defenders claim. Once the attacker leaves the claim, the attacker cannot be captured and gets a free ride back to the Banker. The capturer of the claim flag must take the flag to the Banker. He cannot ask someone else to do it. He must take the flag immediately to Banker (within 5 minutes) and he cannot hide the flag. Attacker who takes base flag off tripod must maintain continuous possession back to the Banker (no handoffs to another miner within or outside the claim).

Once your claim flag is captured, you can no longer capture another mining company's flag or capture other miner's personal flags. You are safe from capture in your own claim but can be captured outside your claim. Once you purchase your claim flag back from Dawson, you get safe passage back to your claim. No one can capture you on this trip.

You must capture a claim flag from every patrol before you capture a claim flag from a mining

company a second time. You must capture a claim flag from every mining company twice before you capture a claim flag from a mining company a third time and so on.

A miner must take his captured miner to the pokey. He cannot ask someone else to do it. Multiple captured miners can be taken to Pokey at the same time, but only by the capturer. The exception is, as miners are captured attacking a claim flag. In this case, one defender may take multiple captured miners to the Pokey even if he didn't capture them. This will allow the remaining miners to protect their claim flag.

If only 1 miner is defending a claim and captures an opponent, he can hold the miner in the claim until a teammate returns. Once a 2<sup>nd</sup> miner returns, the captured miner must be taken to the Pokey.

Bad Guys Watch Out: If the RCMP catches you claim jumping, stealing flags or capturing people you spend 5 minutes in the pokey.

- THERE WILL BE NO GANGING UP 2 OR 3 TEAMS AGAINST ONE!
- THERE WILL BE ONLY 1 TEAM ATTACKING A CLAIM AT A TIME
- A TEAM CAN NOT WAIT AT THE ENTRANCE OF A CLAIM FOR THE CLAIM FLAG TO BE RETURNED
- The Bank/Pokey area and parking lot is considered a safe zone, and miners cannot be captured while in it.
- You are safe in your claim (campsite). Your personnel flags cannot be pulled while you are in your claim.
- Be honest, if someone pulls your "flag", you are captured. admit it and go to the Pokey.
- If your captured and leaving the pokey, you can get a free ride back to your claim (campsite)
- If you capture someone, you can ask if they have any gold. They must give it to you.
- If you capture someone, you must escort them to the Pokey to get your gold.
- You must answer a scout skill question or tie a knot/lashing to get out of the Pokey.

## **FIELD GAMES**

There will be games in the parade field after Capture the Flag game is complete. These are for fun and no gold is awarded. ....

## **MINING DISASTER**

After lunch, a Mouny will enter your campsite. The Mouny will read you the scenario and tell you the symptoms. You will have a few minutes to talk. You will be graded based on how you treat the victim, the order you treat the wounds and teamwork. Remember, you are in the Klondike in 1896. You cannot call 911.

## **DISPUTES**

A scout is trustworthy. Cheating, arguing, lying, pushing, hitting, tripping or other physical contact will not be tolerated. Cheating, counterfeiting gold, etc... are punishable by ejection of the game. Physical contact is punishable by a fine of 25 gold pieces plus extended pokey time or ejection from the game at the discretion of the Mounties. Remember, it's a game and it should be played as such. The Scout Law will govern the game. The Mounties decision is final.

The objective is to record the outside dimensions of your campsite in the form of compass bearings (in degrees magnetic) and distances (in feet, usually, as paced out on the ground).

Specific Instructions: Tie yellow caution tape around trees or stakes that will mark the corners of your claim. Take a compass bearing from a corner to the next corner of your claim and record it on the claim form. Proceed clockwise to the next corner of the campsite counting your steps. Record the distance on your claim form. Be sure to complete the entire loop. Entrance ways/trails cannot be included in the claim.

The accuracy of your compass work will be evaluated by the Claims Verifier using this claim form at Dawson. He will do this by drawing a map from your data, so you'll get better results if you make your numbers clear and easy to read.

Point#	Compass Bearing (in degrees)	Distance (in feet)
1	_____	A _____
2	_____	B _____
3	_____	C _____
4	_____	D _____
5	_____	E _____
